PROFESSIONAL SUMMARY

As a Enthusiastic and Conscientious Computer Science postgraduate ,I bring a strong mix of creativity and technical skills to web development. I've worked hands-on with both frontend design and backend functionality, using tools like HTML, CSS, JavaScript, Java, and MySQL.

TECHNICAL SKILLS

- **Frameworks :** Bootstrap | Tailwind CSS
- **Full Stack Technologies:** HTML5 | CSS3 | JavaScript | Java | MySQL | SQL| MongoDB (Intermediate) | React.js | Node.js(Basic)
- **Others:** Git & GitHub | C++ | REST API | Postman | JWT

WORK EXPERIENCE

Web Development Intern at **Zidio Development** **Mar 2025 – Apr 2025**

- Developed a **full-stack e-commerce website** using **MERN stack (MongoDB, Express.js, React.js, Node.js)** with **100+ product listings** and **user authentication** features.
- Collaborated with a team of 5 developers throughout the **Software Development Life Cycle (SDLC)**, focusing on both **frontend** and **backend development**, including debugging and optimization tasks.
- Wrote **reusable, maintainable code** using **GitHub** for version control and clean code practices.
- Showcased **excellent communication** and **analytical thinking** while coordinating with team members.

Web Technology Intern at **Seyfert Infotech** **May 2024 – Jun 2024**

- **Designed** and **Expanded** 8+ responsive web pages using **HTML, CSS, JavaScript** and **Bootstrap**, resulting in improved load times and clean, scalable, reusable and maintainable code.
- Conducted weekly testing, **debugging**, and **troubleshooting** to enhance website stability, while demonstrating quick learning ability, strong organizational skills, and **a responsive approach to task execution.**
- **Collaborated** with team members and solved real-world problems by integrating **REST API**

Cloud Computing Intern at **Li Creative Technologies** **Mar 2022 – Jun2022**

- Configured cloud-based environments , Exposure to AWS services improving system performance.

PROJECTS

1. **E-Commerce Application using MERN Stack | Demo : GitHub**
   - Created an immersive **UI/UX** using **MERN Stack**, blending **starry night aesthetics with comic superhero themes**, which enhanced visual engagement and improved user retention by an estimated 30%.
   - Demonstrated passion for exploring new technologies throughout the development process.
2. **Smart Parking System using IOT | Demo : GitHub**
   - Designed 6+ dynamic web pages using **HTML, CSS, JavaScript** and **PHP** for a responsive and user-friendly interface, utilizing **Object-Oriented Programming** principles in PHP.
3. **BGCW Website | Demo**: **GitHub**
   - Developed a fully responsive college website using **HTML, CSS, JavaScript** and **Bootstrap,** incorporating **DOM** manipulation techniques to create dynamic user experiences.
   - Applied **creative problem-solving** to develop solutions, while continuously **adapting** to new technologies and embracing a strong **learning** and **self-motivated.**

EDUCATION

M.Sc (Computer Science) -9.2(CGPA) **2023 - 2025**
Sri Manakula Vinayagar Engineering College | Madagadipet Puducherry

B.Sc (Computer Science) - 8.19 (CGPA) **2020 - 2023**
Bharathidasan Government College for Women | Muthialpet Puducherry

CERTIFICATIONS

NPTEL (Java Programmin) Certificate | MongoDB (Introduction) Certificate | HackerRank (SQL Advanced) Certificate
